

CONTENTKEEPER

CONTENTKEEPER TECHNOLOGIES

INTERNET FILTERING

MONITOR

MONITOR • MANAGE • CONTROL • SECURE • MONITOR • MANAGE • CONTROL

ContentKeeper works in real time, so you know when someone is abusing their Internet privileges.

ContentKeeper triggers are customisable. You're only alerted to the Internet behaviour you decide is inappropriate.

ContentKeeper alerts you to the length of time users spend browsing, the types of sites visited, the size and types of files downloaded, and when specific protocols are used.

ContentKeeper automatically sends alerts via email. You can act on any alert immediately.

ContentKeeper integrates with most popular proxy servers and firewalls.

Minimum System Requirements

Microsoft® Windows® 98, NT4, 2000 or XP.

Pentium II-266 MHz, 64 MB RAM, HDD 5 MB.

Microsoft® Internet Explorer 5+ Implemented with a ContentKeeper appliance and/or Advanced Reporting Module.

ContentKeeper Technologies

specialises in producing state-of-the-art appliances and software designed to assist Corporate, Government, educational and ISP clients to better manage their organisation's access to internet resources.
